

Oorg

Helabhoomi Products Limited and Oorg

Helabhoomi Products Limited was established in 2020 with the mission of delivering healthy, organic, and sustainable products to consumers worldwide. Drawing inspiration from Sri Lanka rich agricultural heritage, we are dedicated to empowering local farmers, promoting eco-friendly

practices, and creating products that prioritize health and sustainability. By 2022, we achieved a major milestone by shipping our first container of products to the UK, which quickly sold out, marking a significant step in our journey.
